

# BOREHOLE

## FACILITY

An all-weather indoor 135m borehole, case lined to a depth of 25m and a diameter of 150mm. Ideal for prototype, product development or production testing of down-hole tooling, logging and inspection equipment.

We can also offer the option to train your own staff or run training courses on your equipment using our facility, with the use of our private offices and meeting rooms, all fully equipped with everything you need to administer a full training package.

The borehole is available for fully flexible daily or weekly hire and any requirement can be tailored to your own needs.

## TRAINING

Our premises has both a large conference room for up to 15 delegates and a smaller meeting room for up to 8. These rooms are fully equipped as training rooms with up to date display screen technology and computer connections.

The borehole floor area is secure and undercover where practical training sessions can be executed in a controlled environment.

Our on-hand training administrator will be able to support your training session, providing IT, administration and hospitality support.

## SPECIFIC DETAIL

- ✓ **Depth** 135 metres
- ✓ **Case Lined Depth** 25 metres
- ✓ **Diameter** 150 mm
